

Hydronic Descaling Kit

62734

The **Fernox Hydronic Descaling Kit** is designed to restore and maintain the efficiency of your tankless water heater or hydronic heating system. Its organic acid-based descaler swiftly dissolves limescale buildup and eliminates stubborn dirt and debris. Plus, the DS-40 descaler formula features a top-tier corrosion inhibitor to safeguard your system's metal components.

What's inside?

- The pump – A lightweight submersible model with a capacity of 1600 GPH, featuring a removable inlet screen to minimize cleaning time
- DS40 - **Fernox DS40 Descaler and Cleaner** with system neutralizer is an organic acid-based powder that changes from pink to yellow while descaling
- Hoses – A set of 4' Hoses with GHT fittings and extra washers included

Why choose the Fernox Hydronic Descaling Kit?

- **Highly Effective** - Organic acid based formula removes all accumulated limescale, dirt and debris better than vinegar (and without the smell)
- **Long-Lasting** - The 1/6HP pump is designed to resist corrosion and rust, built for multiple descaling jobs and comes with a 1-year warranty
- **Energy Saving** - Reducing limescale buildup helps cut down on energy costs
- **Cost Efficient** - Each kit can handle 15-20 descaling jobs, providing excellent value

A complete kit designed for the quick and effective removal of limescale and corrosion build up from your system

Restores energy efficiency to your boiler or tankless water heater

Safe for all metals including Aluminum

Includes: 115V Submersible pump, 2 x 4ft rubber service hoses & Fernox DS40 Descaler and Cleaner with System Neutralizer
