GEO-FLO

GEO-FLO PRODUCTS CORPORATION
FIVE (5) YEAR LIMITED WARRANTY FOR PRODUCTS SHIPPED AFTER JANUARY 1, 2014
Residential Class Flow Centers, Single Family Installations
Sold Through Geo-Flo Distributors

Geo-Flo Products Corporation (Geo-Flo) warrants its residential class flow centers purchased through Geo-Flo Distributors in the United States and Canada, to be free from defects in material and workmanship under normal use and maintenance as follows: (1) Wet rotor circulators (pumps) when sold as part of the originally installed flow center for five (5) years, one time replacement, parts only; (2) Cabinet, three-way valves, and internal components for five (5) years, parts only; (3) Pump controllers and other electronics included as part of the flow center or assembly for five (5) years, parts only.

To make a claim under this warranty, parts must be returned to Geo-Flo in Bedford, Indiana, freight pre-paid, not later than ninety (90) days after the date of failure of the part. If Geo-Flo determines the part to be defective, and within Geo-Flo's Limited Warranty, Geo-Flo will return a new or reconditioned part to a factory-recognized distributor or service organization. Coverage includes a one (1)-time replacement for wet rotor circulator(s). Coverage for other components specifically stated in paragraph one of this document expires at the end of the original warranty period. All returns must be pre-approved by Geo-Flo. Due to the nature of foamed-in flow centers, a valve repair kit is the required field repair method for 3-way valve leaks. Flow center pumps must be replaced in the field; Geo-Flo does not accept complete flow center returns when the failure mode requires a pump replacement.
