

62734 - Hydronic Descaling Kit

The Fernox Descaling Kit contains all the necessary equipment to remove limescale, rust and other corrosion debris, quickly and efficiently from your tankless water heater.

The Fernox Hydronic Descaling Kit streamlines the descaling process, ensuring the system remains in optimal condition with minimal effort.

- Removes Corrosion and limescale build-up
- Restores energy efficiency to your boiler or tankless water heater
- Safe for all metals including Aluminum
- Easy to use Organic based acid powder that changes color from Pink to Yellow while descaling your pipes!

Packaging, Handling & Safety

Self-contained kit includes: 115V Submersible pump, 2 x 4ft hoses (3/4" NPT fitting) & Fernox DS40 Descaler and Cleaner.

CAUTION: Electricity and water hazard

Volumetrics & Barcodes
